Bengaluru, Karnataka | +91-9353942386 | likithasp01@gmail.com | LinkedIn | GitHub | Portfolio

Professional Summary

Information Science undergraduate with hands-on experience in Python, Django, JavaScript, and SQL. Skilled in full-stack web development, REST API development, CRUD operations, and database-driven applications. Familiar with AI integration and responsive web application development. Seeking an entry-level Software Developer role to build scalable and efficient web applications.

Experience

MEVI Technologies

Python/Django Full-Stack Developer Intern

Jan – May 2026

Bengaluru, Karnataka

- Developed full-stack web applications using Python, Django, HTML, CSS, and JavaScript, leveraging Django ORM for database management.
- Implemented CRUD operations, database models, user authentication, and backend business logic using Django.
- Built and integrated REST APIs to enable seamless communication between the frontend and backend.
- Integrated AI-powered features using APIs to enhance application functionality.
- Performed application testing, debugging, and performance optimization to improve reliability.

Projects

AI-Powered Student Management System | Python, Django, Django ORM, Groq API, HTML, CSS, JavaScript

- Developed a Django-based Student Management System with CRUD operations, user authentication, and database management using Django ORM.
- Integrated a Groq API-powered AI assistant to provide natural language responses to student queries.
- Designed an interactive dashboard for efficient management of student information.
- Implemented secure API key handling using environment variables.

Food Waste Management Web Application | Node.js, Express.js, EJS, MySQL, Google Maps API

- Developed a full-stack web application connecting food donors and recipients with authentication and booking workflows.
- Developed backend APIs, managed database operations, implemented user authentication using Node.js and MySQL.
- Designed responsive user interfaces to enhance platform accessibility.
- Integrated Google Maps API for location selection and address autofill to improve usability.

Retail Sales Analysis | SQL, Python, Power BI, Excel

- Performed data cleaning, transformation, and analysis using SQL and Python.
- Performed exploratory data analysis (EDA) using Pandas, NumPy, Matplotlib, and Seaborn.
- Created Power BI dashboards to visualize sales trends, KPIs, and business insights.

Skills

Languages: Python, JavaScript, SQL, HTML, CSS

Web & Backend: Django, Node.js, Express.js, EJS, REST APIs, Django ORM, CRUD Operations, User Authentication

AI, Data & Tools: AI Integration, Power BI, NumPy, Pandas, Matplotlib, Seaborn, Excel, Git, GitHub, VS Code, Jupyter Notebook

Education

Maharaja Institute of Technology, Mysore

Bachelor of Engineering in Information Science | CGPA: 8.5/10

2022 – 2026

Mysore, Karnataka

Mandavya Excellence PU College, Mandya

Pre-University Certificate (PCMB) — 76%

2020 – 2022

Mandya, Karnataka
